Flat Glass International

April 3, 2017

Mr. Geoff Sparks
Saudi American Glass Company Ltd.
P.O. Box 8418
Riyadh 11482, KSA

Dear Geoff,

I am pleased to inform you of Saudi American Glass Company's membership in the Vitro Certified™ International Fabricator Program through the program year 2017. As with the former PPG International Certified Fabricator Program, the Vitro Certified™ membership places your factory among an elite group of fabricators now linked to the collaboration of Vitro and PPG and a combined 240 years of glass manufacturing experience.

Membership in the program means that you have exclusive access to the Solarban® solar control family of low-e coated glass products.

The Vitro Certified™ status provides the building owner and architect with confidence that the glass product will meet both industry and Vitro-PPG quality standards. In order to ensure this status remains, members must process Solarban low-e glass according to our process requirements and participate in fabrication audits. Vitro will also provide technical support, when needed, to assist in product selection and quality fabrication.

Vitro proudly announces your membership in the program and is looking forward to a long and prosperous future together!

Sincerely,

A handwritten signature in dark ink that reads 'William Klingensmith'.

W. Klingensmith
